

Headquarters  
ROME AIR DEVELOPMENT CENTER  
Air Force Systems Command  
UNITED STATES AIR FORCE  
Griffiss Air Force Base, New York

Office of  
THE COMMANDER

18 May 1962

Mr. J. Gerald Mayer  
Executive Vice President  
General Instrument Corporation  
Andrews Road  
Ricksville, L.I., N.Y.

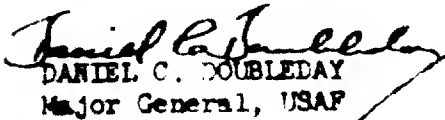

Dear Mr. Mayer:

May I extend the appreciation of Rome Air Development Center for a job well done by your Company on Contract AF 30(635)-25368, "Scan Conversion System".

We were particularly pleased that your organization was able to fabricate and deliver a satisfactory Scan Converter on a crash and tight delivery schedule and still meet our requirements.

It may interest you to know that this equipment is now under operational evaluation at a USAF installation and has been performing reliably to-date.

Sincerely,

  
DANIEL C. DOUBLEDAY  
Major General, USAF  
Commander
